Experience

MacDonald Dettwiler

July 2002–April 2009
mdacorporation.com

Designed and built the UI for large web-based projects. Also created small information-only websites. Spent the last year and a half at the company building the UI for an application for use by insurance adjusters. Designed print work on occasion.

Bento Box Media

June 2000–June 2002
bentobox.net

Designed and developed websites. Created layouts for ads, brochures, letterheads, etc. Did occasional logo design and illustration work.

Fine Arts Diploma
Camosun College, Victoria BC

Awards

1998

Emily Carr Scholarship received for achieving excellence within my field of study

1997

Digital Imaging photography award from Cymbolic Sciences

27-Aug-09

To Whom It May Concern,

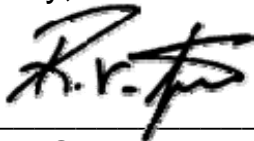

It is my pleasure to provide a personal reference for Christa Kaufmann, who worked as a user interaction designer and developer on the TurboClaim team at MDA while I was Project Manager from September 2008 through April 2009.

Christa, who had been working in various positions within the company since 2002, was chosen for the TurboClaim project because of her previous experience with UI development and because of her extensive knowledge of HTML and CSS. She was required to learn XAML for the new position, and she was able to pick up the new language quickly and easily. Christa has an enthusiasm for learning new skills and techniques.

For much of the time while she was on our team, Christa was the only member whose main role was to build the front end of the software's User Interface. I found that Christa is extremely organized, quickly figures out what needs doing, comes up with creative and useful solutions to problems that arise, and is able to follow through and get the job done.

I would highly recommend Christa for this kind of role. I believe that Christa will be a positive addition to your company. If you have any questions or concerns, please do not hesitate to contact me directly.

Sincerely,

Rob vanSpronssen
Project Manager

To whom it may concern:

I would like to recommend Christa Kaufmann as a candidate for a position with your organization.

In her position as Graphic Artist/Web Developer, Christa was employed in my department from 2003 - 2007. Christa did an excellent job in this position and was an asset to our organization during her tenure with MDA.

She has excellent written and verbal communication skills, is extremely organized, can work well independently or in a team setting, and is able to effectively multi-task to ensure that all projects are completed in a timely manner. She is a fast learner, often taking the lead on working out a new application or process. She has a strong understanding of the tools used and applies them well to the work being produced.

Christa was a pleasure to work with and I feel that she would be an asset to any employer. I recommend her for any endeavour she chooses to pursue.

Yours truly,

Mike Butterfield

Manager, Creative Services
MacDonald Dettwiler & Associates, Ltd.
